

# DILMUROD AKHMEDOV

## Software Developer

## About me

Seasoned, forward-looking Software Developer with more than a year experience background in creating and executing innovative software solutions to enhance business productivity. Sufficiently experienced in all aspects of the software development lifecycle and end-to-end project management, from concept through to development and delivery. Consistently recognized as a hands-on and competent leader, skilled at coordinating cross-functional teams in a fast-paced, deadline-driven environment to steer timely project completion within budgetary constraints.
